

COVID-19 Office Reopening

We are scheduling routine eye exams again. We have missed our patients, and are very excited to safely get back into the swing of things after our temporary pause due to Covid-19. Give us a call at 918-745-9700.

Rest assured, we have developed new office protocols to protect the health and safety of our patients and our staff. For the time being, we will be lengthening the time between patient appointments with the goal of having only one patient in the office at a time. We will check the temperature of every person entering our office. Thorough disinfection will take place after every patient. We will be wearing protective equipment and ask all patients to wear face coverings into the office. We are asking that patients do not bring any family or guests with them into the office (unless the patient is a minor or requires a caregiver). Please make appointments for glasses adjustments and dispensing to assure social distancing is observed. Lastly, if you or a member of your household is ill, please reschedule your appointment.

We will be monitoring conditions and recommendations and will update our policies accordingly.

Thank you,

Andrea Dudley, OD and staff
